

IT'S TIME TO THINK
OF SOMETHING ELSE.

과민성방광 치료를 위한
최초의 β_3 아드레날린 수용체 작용제

베타미가[®] 서방정 50 mg

미라베그론

A fresh start in OAB

IT'S TIME TO THINK OF BETMIGA

Betmiga is a new type of OAB treatment.¹

- It's the first β_3 -adrenoceptor agonist to treat OAB

Betmiga 50 mg is effective in OAB patients^{1, 2, 3}

- Including treatment-naïve and those who discontinued previous treatment due to lack of efficacy¹

Betmiga 50 mg is well tolerated and helps relieve the burden of OAB.^{2, 3}

- Dry mouth rate was comparable to placebo^{2, 3}
- Significantly improved patient quality of life^{2, 3}
